

Key Action: Partnerships for cooperation and exchanges of practices  
Action Type: Cooperation partnerships in higher education

#### Project Title

# Cooperation partnership for innovation and development of green skills & knowledge enabling transformation and change for greening jobs and enterprises "educate4green"

**Project Coordinator** UNIVERSITATEA POLITEHNICA DIN BUCURESTI (RO)

#### Project Information

<b>Identifier</b>	2022-1-RO01-KA220-HED-000085618
<b>Start Date</b>	Dec 1, 2022
<b>End Date</b>	Nov 30, 2025
<b>Partners</b>	S.C. EUROTRAINING SOLUTION S.R.L. (RO) , INFOR ELEA (IT) , POLITEHNIKA LODZKA (PL) , UNIVERSITY OF RUSE ANGEL KANCHEV (BG)
<b>Topics</b>	Green skills ; Creating new, innovative or joint curricula or courses ; Digital skills and competences

---

## Project Summary

### Objectives

Our project fits into the 6th action stated by the European Skills Agenda with regard to skills to support the green and digital transition. It aims to accelerate the development of green knowledge and skills of students, teachers and practitioners by designing, implementing and scaling up an Innovative Educational Model framed by transnational, trans-disciplinary and forward-looking approaches in business & engineering fields toward greening jobs & enterprises, and sustainable growth.

### Activities

The project commits a range of interconnected activities with strong digital character and multidisciplinary thematic facets on green concerns which bring methods and techniques that integrate Innovative Educational Model into the digital teaching and learning practices of partners. These give opportunities for innovation in business & engineering areas, knowledge exchange and experience sharing within the broader scope of greening jobs and enterprises and environmentally responsible behavior.

### Impact

The thematic focus with trans-disciplinary approaches enables scalability of results including the opportunity to bring together 180 students, 33 teachers from various specialisations, 50 practitioners from different industry sectors, 65 learners (HE students, teachers, and trainers), and 100 transnational participants in a mix of learning contexts for cooperation and learning to boost innovation, green skills & knowledge, employability and new business creation in this part of Europe.
